

Aydın Bilgin Güngördü

Welcome to Aydın Güngördü's personal website.

This site is permanently under construction.

About

There is no discernible raison d'être for this page, it was developed for fun. This page is hosted on Google's Cloud, it was written purely in Java using components from Google's Web Toolkit, then the front end was compiled into JavaScript, with AJAX calls to server-side logic deployed on Google's App Engine. Additional

Career

Aydın graduated from Virginia Tech University, USA with a B.Sc. in Computer Science in 2004, he went on to earn a M.Sc. in Software Engineering from 2005 to 2007 while working fulltime as a Java Developer. He has almost eight years of industry experience with Java / JEE webapp development, SOA integrations, mobile development in JME, XHTML, and

Personal

Aydın was born in Izmir, Turkey on July 31st, 1982. In early 1988, he moved with his parents and sister to Brussels, Belgium. He attended the British School of Brussels until 1995, St. John's International School until 2000, and Virginia Tech until 2004. Upon graduating from VT, Aydın moved to his native Turkey to live in Istanbul for a
